Skilled Carpenter extensive work experience in residential and commercial building. Recognized for superior work ethic, customer service and quality production. “Hands-on” background and “down-to-earth” outlook. Established reputation for always completing projects correctly, on-time and under budget. Self-starter, well rounded and accurate. Knowledgeable in all details of building from drywall to plumbing and electrical. Have a perfectionist eye for quality and detail and take pride in knowing that projects are done to quality standards. Patient and persistent in approach to achieving goals. Gather facts and data to make educated decisions. Look for methods, procedures, or systems to solve problems outside the box. Thrive in a team mentoring, motivating, and deadline-oriented environments. Promote a commitment to high standards of excellence with always making sure that the job is exactly what the client desires and needs. Currently seeking a full-time position in Web Development through the completion of the SavvyCoders 12 week coding bootcamp.

**Professional Achievements:**

Earned: Journeyman Certificate from CJAP

Agile Fundamentals including Scrum and Kanban Certificate

Agile Master Class Certificate

**Technical Skills:** JavaScript, HTML5, CSS3, JSON, Markdown

**Continued Learning:**

Savvycoders- 12-week immersive coding bootcamp where I am learning the fundamentals of Object Oriented Programming in JavaScript, HTML, CSS, JSON, completed an Agile certificate and learning how to build a SPA from the ground up.

**Capstone project:** For my capstone project I want to create a web application for people in my area or for visitors of St. Louis county who enjoy outdoor activities to be able to quickly locate all the beautiful and scenic bike trails and parks in our area. With this application I would like them to know if the weather is optimum for their bike ride or walk , give them an up to date layout and let them know of all the other resources located at the park or trail they want to visit. I chose this project because I enjoy the perks of all these parks in my area and I would like others to be able to as well.

**Personal Projects/ Interests related to tech:** While employed with Lancaster Management I have done sets for plenty of IT companies from Dell, Plesk, HP and so on. What will be nice is working with companies like this from the IT side.

**Employment History:**

Lancaster Management Services

August 2006-Present

Lead Carpenter/Micro Manager (St. Louis)

Tipton, IN

- Worked all over the country for Lancaster Management as a Project Manager leading their jobs.
- Worked with high profile clients sets like Perkin Elmer, Plesk, Dell, Alfa Romeo and many more.
- Always completed jobs under budget and on time.
- Have 14 years with Lancaster Management until COVID-19.

Elite Tradeshow Specialist

July 2008- Jan 2015

Lead Carpenter/Micro Manager (St. Louis)

Chicago, IL

- Served as a Project Manager for Elite leading a variety of jobs.
- Worked with many more high profile clients like Northrop Grumman and Oshkosh which flew me back and forth to Washington DC every year to build their sets.
