**LinkedIn:** <https://www.linkedin.com/in/brian-kimbrow-686b7611a/>

**Github:** <https://github.com/kimbrow1/Capstone-Special-Bodies->

### **Professional Summary:**

Law enforcement professional that enjoys assisting and teaching others. A true connector, providing information to those that need it, and connecting people with needed resources. Possesses integrity and is competitive. Currently making a transition to full stack web development by taking the Savvy Coders Boot Camp. Long term goal is to design animation for games. Has a strong background in volunteer work with the YMCA and is an excellent communicator.

**Skills Summary:** Completing the Savvy Coders immersive coding bootcamp, learning JavaScript, HTML5, CSS3, JSON, UI/UX, Project Planning through Trello and Kanban, and Agile.

### **Continuing Education:**

Savvy Coders Web Development Boot Camp – 2020

Agile Certification - 2020

**Capstone Project:** My capstone project was created in order to make sure that parents have resources to make sure that their loved ones are healthy and active. The website will contain a location, list of events, healthy eating tips, and will also have videos that demonstrate workouts that can be done at home. In addition, my capstone will have a Facebook, Instagram, and Twitter feed that will have information from past events and upcoming events. I plan to include tips of the week on what to eat and how many hours a person should be active a day/week. There will be a community resource page as well to make sure that people are able to connect with each other. This website will also have a page where people can see what events are coming up for the special Olympics in case they want their kids or relatives to attend.

### **Volunteer Experience:**

**YMCA and Martha O'Bryan Carter**

**May 2012 – May 2014**
