## Professional Summary:

Certified Pharmacy Technician with 7+ years of retail, hospital, and compounding pharmacy experience. Transitioning to a full stack web developer. Currently enrolled in the Savvy Coders web development boot camp. Detail-oriented and focused on accuracy and efficiency.

## Continuing Education:

Savvy Coders Web Development Boot Camp – 2020

Agile Certification - 2020

## Capstone Project for Savvy Coders:

While younger generations often integrate technology seamlessly into their lives, some adults use technology a bit differently. For my capstone project, I decided to create a user-friendly pharmacy web application that would cater to older generations and encourage those with impaired senses to keep track of their medications online.

## Technical Skills:

Full Stack JavaScript, HTML, CSS, Git, Express, Node.js, Trello, Agile
