## Professional Summary

Strong background in the food and beverage service industry. Currently employed as the General Manager of The Mud House, as well as the Brand Manager/Roaster for MOMO Roasting Co. A hardworking and creative individual, with a wide array of skills developed over years of management at this local (and very busy) restaurant. Believes in honesty and empathy as a guiding light for himself, and how he relates to others. This has been his greatest strength as a manager of a staff of up to 30. Frequent and clear communication is how he achieves that goal.

Motivated to make a change to a technology-based career. Currently attending the Savvy Coder Web Development Boot Camp. Loves the design aspect and is really enjoying wireframing instruction at Savvy. Created the branding for the MOMO Roasting Co., by working with a designer and going through several iterations of mock up. He assisted with package design, bags, colors, logo, etc. He enjoyed finding things he was inspired by to represent the company the way they wanted to be seen. Constant learner, hard working, understanding, and a good communicator.

**Skills Summary:** JavaScript, HTML, CSS, Trello, Agile, MS Office, Github, and Adobe Indesign

**Capstone:** My Capstone SPA is meant for coffee exploration. I want to connect people both locally and virtually for the purpose of having a coffee cupping, a formal way to taste coffee analytically. It will provide information on how to get started, a list of necessary equipment, some basic guidelines, as well as some helpful videos and references. I am utilizing various technologies to build my capstone such as JavaScript, HTML, CSS, Trello and Github.

## Education

Savvy Coders Web Development Boot Camp – 2020

Agile Certification – 2020
